

ENVIRONMENTAL FARM PLAN WORKSHOPS

The Pigeon Lake Watershed Association is pleased to sponsor several Environmental Farm Plan workshops www.albertaEFP.com. The workshops are an awareness and education program focusing on best environmental practices for farms and acreages. They are a free, confidential service. Excellent information is provided along with concrete suggestions for implementing changes. After completion of the program, attendees may qualify for up to \$50,000 of funding to help implement recommended improvements.

Several members of the PLWA board of Directors have taken the workshops and highly recommend the program. By getting the agricultural and acreage communities involved in this initiative we hope to improve the health of our lake.

The following sessions have been booked, many of which are sponsored by the PLWA:
