

## **Alberta Environmental Farm Plan Workshops – Free and Confidential**

PLWA sponsored three free Environmental Farm Plan (EFP) workshops this winter to help owners implement best environmental practices for their farm or acreage. Acreage and agricultural property owners in the Counties of Wetaskiwin and Leduc, who have successfully completed the program, may be eligible for grant funding of up to \$50,000.00. Several of our Board members have completed this free and confidential program and highly recommend it!

More workshops are planned for May so sign up today! The workshop coordinators provide a lot of individual attention to help create an effective plan for both acreage and agricultural property owners.

Registration information will be posted on this site. General information is available from: Murray Warnke [warnke@albertaEFP.com](mailto:warnke@albertaEFP.com) or Carol Rempel. <rempe@albertaEFP.com>
